Monthly	September 2018	110	20	15/08/2018
Monthly	September 2018	110	20	22/08/2018

Due to the delay in the go-live date for I-SEM², there will be additional physical transmission right (PTR) auctions for the Moyle Interconnector to allow market participants to trade across the interconnector up to the new go-live date.

Exact timings and capacity volumes will be published with AMP auction specifications.

An FTR trading information pack, providing additional information on the I-SEM arrangements, can be found at:

<http://www.mutual-energy.com>

¹ The I-SEM arrangements are due to go-live at 2300 on 30th September 2018. Quarterly and September monthly products will expire at this point.
